```python
from swarm_models.gpt4_vision_api import GPT4VisionAPI

from swarms.structs import Agent

llm = GPT4VisionAPI()

task = "What is the color of the object?"

img = "images/swarms.jpeg"

## Initialize the workflow
agent = Agent(

    llm=llm,

    max_loops="auto",

    dashboard=True,

)

agent.run(task=task, img=img)
```
