<!-- Thank you for contributing to Zeta!

Replace this comment with:

  - Description: a description of the change,

  - Issue: the issue # it fixes (if applicable),

  - Dependencies: any dependencies required for this change,

  - Tag maintainer: for a quicker response, tag the relevant maintainer (see below),

  - Twitter handle: we announce bigger features on Twitter. If your PR gets announced and you'd like

a mention, we'll gladly shout you out!

If you're adding a new integration, please include:

  1. a test for the integration, preferably unit tests that do not rely on network access,

  2. an example notebook showing its use.

Maintainer responsibilities:

  - nn / Misc / if you don't know who to tag: kye@apac.ai

  - tokenizers: kye@apac.ai

  - training / Prompts: kye@apac.ai

  - models: kye@apac.ai

If no one reviews your PR within a few days, feel free to kye@apac.ai

See contribution guidelines for more information on how to write/run tests, lint, etc:
