```javascript
import { trpc } from '@/shared/utils/trpc/trpc';

const useCardManager = () => {
  const methods = trpc.payment.getUserPaymentMethods.useQuery();

  const attach = trpc.payment.attachPaymentMethod.useMutation();

  const detach = trpc.payment.detachPaymentMethod.useMutation();

  const getDefaultMethod = trpc.payment.getDefaultPaymentMethod.useQuery();

  const setAsDefault = trpc.payment.setDefaultPaymentMethod.useMutation();

  return {
    methods,

    attach,

    detach,

    setAsDefault,

    getDefaultMethod,
  };
};

export default useCardManager;
```
